Subject Index

A

About the CDC, 328
Acquired Immunodeficiency Syndrome (AIDS). *See also* HIV
  attitudes about, among college freshmen, 226
Adolescents. *See also* Minors
  attitudes of, toward smoking cessation, 221
Age
  repeat mammography in women over age 50, 182
  and restriction of access to tobacco, 19
Attitudes
  of adolescents toward smoking cessation, 221
  on cardiovascular diseases, 53
  of heavy smokers toward cessation, 207
  on hypertension and compliance, 141
  improved, in medical students, toward prevention of cardiovascular diseases, 53
  motivation, in follow-up care, physician assessment of patient, 147
  on sexual behaviors and AIDS in college freshmen, 226
  of women, toward mammography, 69

B

Behavioral Risk Factor Surveillance System (BRFSS), 303
Behavior modification
  environmental indicators as tool in evaluating community-based health-promotion programs, 345
  impact of health risk appraisal and counseling in health promotion for factory workers, 37
  impact of pregnancy on prenatal and postpartum smoking, 8
  patterns of interrelationships among health-promotion, 351
  role of follow-up visits in smoking cessation program, 91
  smoking rates among Rhode Island physicians, 86
Blacks
  impact of very low birthweight on gap between white infants and, 271
Blood pressure
  coronary risk factor behavior following screening program, 115
  patient's view of, and compliance, 141
Book reviews
  Growth Monitoring and Promotion in Young Children: Guidelines for the Selection of Methods and Training Techniques, 132
  Handbook for Health Directors, 132
  Understanding and Managing Cholesterol: A Guide for Wellness Professionals, 201
Breast cancer
  evaluation of media-based mammography program, 23
  female employee participation in worksite mammography screening program, 309
  repeat mammography in women over age 50, 182
  screening for, 78
  sensitivity and specificity of lung detection in breast models, 314
  women's attitudes toward mammography, 69

C

Cancer. *See also specific sites*
Cancer control
  breast lump detection, 314
  mammography, 23, 69, 78, 182, 303, 309
  Pap smears, 287, 292
Cardiovascular disease
  application of MRFIT smoking cessation program to healthy, mixed sex sample, 165
  association between cholesterol and growth in pre-adolescents, 96
  medical students' improved attitudes toward prevention of, 53
  patient perceptions about influence of cholesterol on, 30
  patient view of hypertension and compliance, 141
  randomized trials of fish oil in prevention of restenois following coronary angioplasty, 186
Cardiovascular risk factors
  assessment of medical students as educational tool, 384
  behavior following screening program, 115
  successful modification of, in medical students, 43
Cervical cytology
  agreement between patient self-reports and medical records for Pap smear histories, 287
  use of, in identifying women at risk for chlamydia infection, 292
Chemoprophylaxis
  and prevention of tuberculosis in children, 283
Child care facilities
  self-reported safely practices in, 14
Children. *See* Pediatrics
Chlamydia infection
  cervical cytology in identifying women at risk for, 292
Chlamydia trachomatis infection
  prevalence of, among women in multiphysician primary care practice, 298
Cholera, 263
Cholesterol
  association between growth and, in pre-adolescents, 96
  attendance patterns and characteristics of participants in screening programs, 159
  coronary risk factor behavior following screening program, 115
  effect of minor illness on, 100
  patient perceptions about influence of, on heart disease, 30
  seasonal variation in, as implication for screening and referral, 360
College students
  sexual behavior, knowledge, and AIDS among, 226
Community health
  attendance patterns and characteristics of participants in public cholesterol screening, 159
  environmental indicators in evaluating health-promotion programs, 345
  and evaluation of media-based mammography program, 23
  follow-up on use of local health department clinics for pediatric care, 178
  narrowing gap in health status of minority populations, 319
  potential conflict of interest during epidemics in long-term care facilities, 203
  seasonal variation in plasma cholesterol distributions as implication for screening and referral, 360
  transforming neighborhood health center into community oriented primary care practice, 62
Compliance
  patient's view of hypertension and, 141
Computers
  and use of U.S. Preventive Services Task Force Guidelines in risk analysis for primary care patients, 150
Continuing education
  learning objectives for training in occupational medicine, 249
Coronary angioplasty
  randomized trials of fish oil in prevention of restenosis following, 186
Counseling. *See* Health counseling; Sexual counseling

D

Demographics. *See* Sociodemographic factors
Diet
  effect of minor illness on cholesterol level, 100
  environmental indicators as tool in evaluating community-based health-promotion programs, 345

Diet (*continued*)
and patient perceptions about influence of cholesterol on heart disease, 30
randomized trials of fish oil in prevention of restenosis following coronary angioplasty, 186
weight reduction and health prevention, 154
Direct immunofluorescent antibody (DFA) test
in screening for *chlamydia trachomatis*, 298
Disease prevention
medical students improved attitudes toward prevention of cardiovascular disease, 53

E

Early and Periodic Screening, Diagnosis, and Treatment Program (EPSDT), 178
Editorials, 128, 266
Education. *See* Continuing education; Medical education
Environmental indicators
as tool for evaluating community-based health-promotion programs, 345
Epidemiology
association between cholesterol and growth in pre-adolescents, 96
effect of health promotion on medical claims, 110
promoting prevention services in primary care, 135
relationship of maternal smoking during pregnancy to placenta previa, 278
of school-related injuries, 193
Ethnicity
and trend analyses of social and economic indicators of, in Hawaii, 303

F

Family physician. *See* Physician
Follow-up
application of MRFIT smoking cessation program to healthy, mixed sex sample, 165
physician assessment of patient motivation, 147
role of, in family physician smoking cessation program, 91
on use of local health department clinics for pediatric care, 178
From Around the World, 131
From Capitol Hill, 199

G

General practice. *See* Primary care
Growth and development
association between cholesterol and, in pre-adolescents, 96

H

Health care costs
impact of dissemination of smoking cessation methods on, 171
Health care reforms
determinants of preventive practices of general practitioners in Torino, Italy, 339
preventive practices of general practitioners in Torino, Italy, 333
Health concerns
of adolescents in desire to quit smoking, 221
Health counseling
coronary risk factor behavior following screening program, 115
impact of health risk appraisal and, on factory worker behavior, 37
physician attitudes toward preventive care services, 241
Heart disease. *See* Cardiovascular disease
Health examination
effect of fact sheet reminder on performance of periodic, 104
Health promotion
coronary risk factor behavior following screening program, 115
effect of, on medical claims, 110
environmental indicators in evaluating community-based programs, 345
female employee participation in worksite mammography screening program, 309
impact on factory workers of health risk appraisal and counseling in, 37
patterns of interrelationships in behaviors related to, 351
of prevention services in primary care, 135
quality assessment in worksite, 123, 128
traditional public health approach to, 395
and weight reduction diets, 154
Health risk appraisal
impact of counseling and on factory worker behavior, 37
Health status
narrowing gap in minorities, 319
HIV. *See also* Acquired Immunodeficiency Syndrome (AIDS)
patient observation of physician prevention practices, 235
Hypercholesteroiemia
seasonal variation in plasma cholesterol distributions as implication for screening and referral, 360
Hypertension. *See* Blood pressure

I

Illness
effect of minor, on cholesterol, 100
Immunizations
follow-up on use of local health department clinics for, 178
Income level
and trend analyses of social and economic indicators of in Hawaii, 303
Infant mortality
impact of very low birthweight on black-white gap, 271
Infection
cholera, 263
potential conflict of interest during epidemics in long-term care facilities, 203
Injuries
epidemiology of school-related, 193
self-reported safely practices in child care facilities, 14
Isoniazid
and prevention of tuberculosis in children, 283

L

Letters to the editor, 200, 330
Local health department clinics
follow-up on use of, for pediatric care, 178
Long-term care facilities
patient-care directives in, 203
Low birthweight
impact of dissemination of smoking cessation methods on, 171
impact of very, on black-white infant mortality gap, 271
and Mexican-American use of prenatal care, 1

M

Macrosomia
and Mexican-American use of prenatal care, 1
Mammography
effects of physician characteristics on, 78
evaluation of media-based program, 23
female employee participation in worksite screening program, 309
repeat, in women over age 50, 182
trend analysis of social and economic indicators of, in Hawaii, 303
women's attitudes toward, 69
Maternal risk factors
relationship to prenatal care, for Mexican-Americans, 1
Medical education
developing primary care curricula in preventive medicine, 389
learning objectives for training and continuing education in occupational medicine, 249
public health clerkship, 58
successful modification of cardiovascular risk factors in medical students, 43
Medical insurance claims
effect of workplace health promotion on, 110
Medical record documentation
agreement between patient self-reports and, for Pap smear histories, 287
Medical schools
partnership with community in narrowing gap in health status of minorities, 319
Medical students
cardiovascular risk factor assessment of, as educational tool, 384
improved attitudes of toward prevention of cardiovascular diseases, 53
successful modification of cardiovascular risk factors in, 43
Mexican-Americans
use of prenatal care, 1
Minnesota Heart Health Program, 360
Minorities
narrowing gap in health status of, 319
Minors. *See also* Adolescents
restricting access to tobacco, 19
Mortality. *See also* Infant mortality
narrowing gap in health states of minority populations, 319
Motivation. *See* Attitude
Multiple Risk Factor Intervention Trial (MRFIT)
application of smoking cessation to healthy, mixed-sex sample, 165

learning objectives for training and continuing education in, 249

P

Papanicolaou (Pap) smears
agreement between patient self-reports and medical records for histories of, 287
in identifying women at risk for chlamydia infection, 292
Patient-care directives
in long-term care facilities, 203
Patient perceptions
about influence of cholesterol on heart disease, 30
Pediatrics. *See also* Adolescents; Minors; Pre-adolescents
epidemiology of school-related injuries, 193
follow-up on use of local health department clinics, 178
missed opportunities in prevention of tuberculosis, 283
Physical fitness
validity of self-assessed, 367
Physician(s)
assessment of patient motivation, in follow-up care, 147
attitudes of, toward preventive care services, 241
determinants of preventive practices of, in Torino, Italy, 339
effect of, on breast cancer screening, 78
effect of fact sheet reminders on performance of periodic health examination, 104
learning objectives for training and continuing education in occupational medicine, 249
practice and earnings of preventive medicine, 257
role of follow-up visits in smoking cessation program, 91
role of, in preventive services in Torino, Italy, 333
smoking rates among Rhode Island, 86
Placenta previa
relationship of maternal smoking during pregnancy to, 278
Postpartum behavior
impact of pregnancy on smoking, 8
Poverty
and incidence of cholera, 263
Pre-adolescents
association between cholesterol and growth in, 96
Pregnancy
impact of, on smoking, 8
impact of dissemination of smoking cessation methods on low birthweight rate and on health care costs, 171
relationship of maternal smoking during, to placenta previa, 278
role of telephone in providing prenatal care, 373
smoking prevalence during, compared to general population, 215
Prematurity
and Mexican-American use of prenatal care, 1
Prenatal care
and impact of pregnancy on smoking, 8
Mexican-Americans use of, 1
role of telephone in providing, 373
Preventive cardiology
attendance patterns and characteristics of participants in public cholesterol screening, 159
cardiovascular risk factor assessment of, medical students as educational tool, 384
medical students' improved attitudes toward prevention of cardiovascular diseases, 53
patient's view of hypertension and compliance, 141
successful modification of cardiovascular risk factors in medical students, 43
Preventive medicine
determinants of, for general practitioners in Torino, Italy, 339
developing primary care curricula in, 389
dissemination of sexual knowledge and AIDS information among college freshmen, 226
effect of fact sheets reminder on performance of periodic health examination, 104
follow-up on use of local health department clinics for pediatric care, 178
interrelationships among health-promotion behaviors, 351
medical students' improved attitudes toward prevention of cardiovascular diseases, 53

role of, in preparing physicians to provide preventive care services, 241
Residents
adventures in preventive medicine, 66
transforming neighborhood health center into community oriented primary care practice, 62
Residents' Forum, 269
Restenois
randomized trials of fish oil in prevention of, following coronary angioplasty, 186
Risk management
cardiovascular assessment of medical students as educational tool, 384
coronary risk factor behavior following screening program, 115
effect of fact sheets reminder on performance of periodic health examination, 104
interrelationships among health-promotion behaviors, 351
promoting prevention services in primary care, 135
safety information for customers of suntanning salons, 381
successful modification of cardiovascular risk factors in medical students, 43
traditional public health approach to, 395
use of cervical cytology in identifying women at risk for chlamydia infection, 292
use of U.S. Preventive Services Task Force Guidelines in, 150

S

Safety information
for customers of suntanning salons, 381
Safety practices
self-reported, in child care facilities, 14
Screening programs
attendance patterns and characteristics of participants in cholesterol, 159
Self-assessment
validity of, in physical fitness, 367
Sexual behavior/knowledge
attitudes about among college freshmen, 226
Sexual counseling
patient observations of physician Std/HIV prevention practices, 235
Sexually transmitted diseases
cervical cytology in identifying women at risk for chlamydia infection, 292
patient observation of physician prevention practices, 235
prevalence of *Chlamydia trachomatis* among women in multiphysician primary care practice, 298
Skin cancer
safety information for customers of suntanning salons, 381

Smoking
environmental indicators as tool in evaluating community-based health-promotion programs, 345
heavy, among sample of employed women, 207
impact of pregnancy on, 8
prevalence of pregnant women compared to general population, 215
rates among Rhode Island physicians, 86
relationship of maternal, during pregnancy to placenta previa, 278
restricting minor's access to tobacco, 19
Smoking cessation
application of MRFIT program to healthy, mixed sex sample, 165
attitudes of adolescents toward, 221
family physician program for, 91
for heavy versus light smokers, 207
impact of dissemination of methods on low birthweight and health care costs, 171
smoking rates among Rhode Island physicians, 86
Sociodemographic factors
attendance patterns and characteristics of participants in public cholesterol screening, 159
practice and earnings of preventive medicine physicians, 257
and smoking cessation during pregnancy, 8
smoking prevalence of pregnant women compared to general population, 215
Sports injury
epidemiology of school-related, 193
State legislation
in restricting minor's access to tobacco, 19
Suntanning salons
safety information for customers of, 381

T

Telephone healthlines
role of, in providing prenatal care, 373
Tobacco. *See* Smoking, 19
Torino, Italy
determinants of preventive practices of general practitioners in, 339
preventive practices of general practitioners, 333
Tuberculosis
missed opportunities in prevention of, in children, 283

U

Ultraviolet radiation
safety information for customers of suntanning salons, 381
U.S. Preventive Services Task Force guidelines, 150
Utilization
effect of workplace health promotion on medical claims, 110
